Techmagnate, a New Delhi based IT Firm bags prestigious Medical Tourism Portal Project

Techmagnate, a fast growing Internet firm of India, has bagged prestigious order of developing and managing the complete web portal on medical tourism for All India Medical Tourism Company.

/24-7PressRelease/ - May 13, 2008 - Techmagnate, a New Delhi based IT firm, has bagged prestigious order of developing and managing the complete web portal on medical tourism for All India Medical Tourism Company. Techmagnate will not only design the website but also take care of all its programming and content management needs. Indian hospitals are fast becoming most preferred destination for an increasing number of foreign patients. According to a report, over 1.5 lakh medical tourists traveled to India in 2002 alone, bringing in earnings of \$300 million. Since then, medical tourism has witnessed increase by at least 25% per annum. A CII - McKinsey report projects that earnings through medical tourism would go up to \$2 billion by 2012. India has some of the most modern hospitals and medical centers imparting healthcare facilities of International level. The facilities are not only world-class but affordable.

To cater to the increasing number of foreign patients, All India Medical Tourism Company has decided to build and promote its web portal - www.allindiamedicaltourism.com by integrating advanced technologies and search engine optimization. The portal will be used to arrange medical treatment in India for patients from countries all over the world including USA, UK, UAE, Germany, France, Australia, New Zealand, Japan etc. The site design would be user friendly and visitors will easily access the information on various medical conditions and treatment facilities available, apart from booking medical packages and services online. All India Medical Tourism Company will also provide additional services like flights, visas, and accommodation, airport pick-up and transfer to the hospital, providing CV of the doctor/surgeon, pictures of the hospital and sight-seeing tours.

Techmagnate, a fast growing Internet firm of India, believes in the endless possibilities of the Internet. It provides the complete range of services including web site development, designing, search engine optimization and software development. At the helm of affairs, Sarvesh Bagla, the CEO & founder of Techmagnate, has ensured that the company continues to grow from strength to strength. Sarvesh has a Masters Degree in Information Networking from Carnegie Mellon University, Pittsburgh where he was awarded the Kennametal Fellowship for outstanding academic performance and research work. He worked for Verizon IT in Dallas for 2 years and was awarded the Verizon Excellence award in both years of service. Sarvesh moved back to New Delhi, India in 2005 and founded Techmagnate in 2006.

Techmagnate - Professional Web solutions and SEO Services Company at an affordable cost.
